

DAY OF GIVING: VISION, MISSION, AND VALUES STATEMENTS

Vision:

We envision the Day of Giving as a significant opportunity for people from all sectors of our community to join in working together with the common goal of giving for the benefit of those who are sick or in need.

Mission:

To bring our vision to fruition, we will establish one day each year to hold the Day of Giving. It will be a collaborative effort of area religious groups who choose to participate in organizing, running, or contributing to the effort. We will seek the support of community, government, civic, and business organizations and provide a venue for people to give in ways which will help those struggling with illness or enduring economic hardship.

Values:

Even though we come from varied backgrounds, we share important core values as we work together on the Day of Giving. We know it is important for us to show our faith in action and to help our fellow man, and we value the experience of putting aside any barriers between religious groups or between religious groups and community organizations as we work together with one shared, altruistic goal - to make a difference in the lives of those who struggle economically or have health problems. We value the fellowship and cross-community ties which result when people from throughout the community work together. We cherish the opportunity to give without expectation of return and to affect the lives of people, not only in our community but in the broader world.
